At 4 o'clock p. m., iast Tuesslay, the trial of the Reed City robbers commenced at this place. Judge Wheeler had not prevent an excellent showing of grain, vegetables, stock, etc. The exhibit in the two first mentioned classes was one which we do not believe has been excelled at any County Fair in the State, this Fall. The most noticeable, perhaps, in the stock department, were some fine Southdown sheep and Berkshire pigs, belonging to D. A. Blødgett, Esq., of Hersey. The Society has some ten or twenty acres of ground enclosed by a high, close board fence, a commodious Hall, a well of water, and comfortable accommodations for stock.

The premium articles at the Fair last week, destined for Hon. Wm. L. Webber, Land Commissioner of the F. P. M. Railway Company, were forwarded to him hast Saturday morning. The Saginaw duily Courier, in speaking of the grain and vegetables from this county snot Mason, on exhibition in Webber's office, says the articles from Mason county were fine; but that those from this county were fine; but that those from the piains, which semany considering the fact that they were rabsed on the piains, which semany consider barren and worthless.

Muck indignation is openly expressed at the disagreement of the jury in this case; but it appears that no person is really to blame in the matter. Had the Sheriff and Prosecuting Attorney, perions, been aware of the exact condition of the juryman who stood out so strongly for acquittal, he would have been promptly rejected at the start; as he has been considered as rather peculiar in his ideas of matters and things in general. Peterson's Magazine, the Queen of the Lady's Books, is on our table for November. The principal steel engraving, "Little Red Riding-Hood," is rarely beautiful. So, also, is the mammoth colored steel fashlom plate. But, as a cotemporary says, the stories, the fushions, the patterns, is short, everything in "Peterson" is the best of its kind. For 1878 great improvements will be made. Among these a mouthly Supplement, containing a Full-sized Paper Pattern for a lady's or child's dress, thus giving to every subscriber twelve such patterns, extra, during the year. These patterns alone will be worth the subscription price. Five original copyright novelets will also be given, besides a hundred shorter stories. But the price will remain the same, viz.: Two Dolliam a Year, the postage pre-paid by the publisher. To Clubs the prices are even lower, (postage also pre-paid,) viz.: two copies for Si.60, with a supert Mezzotint (24 inches by 20), "The Angers or Christmans," the finest and castliest ever offered, to the person getting up the club; or four copies for \$6.80, (postage pre-paid,) and an extra copy to the person getting up the club; Por \$6.60 six copies will be sent (postage pre-paid,) and both an extra copy and the "Angers or Christmans," the finest and eastliest ever offered, to the club. For \$6.80 six copies will be sent (postage pre-paid,) and both an extra copy and the "Angers or Christmans," as premiums. Specimens of the Magasine are seut, gratis, if written for, to those wishing to get up clubs. Subscribe to nothing else until you have seen a copy of this popular Magasine. Our attention has been called to some new and useful cooking utensils, recent-y invented which make baking and sooking a pleasure, instead of a dreaded secesity. One of which, the Patent centennial Cake and Bread Pan, made of Russia iron, is so constructed that port, for boiling of steaming vegetables, etc., which when sone, can be removed perfectly dry, without lifting the heavy sooty iron pot off of the stove, avoiding the danger of burning the hands with the steam in pouring off the hot water, and the vegetables can not possibly burn if the water boils dry, as the steamer does not touch the bottom of the pot. The se goods are sold exclusively through agents to families, and every housekeeper should by all means have them. A splendld opportunity is offered to some reliable lady or gentleman canvasser of this county to secure the agency for a pleasant and profitable business. For terms, territory, etc., write to L. E. The advertisement of The Chicago Post appears in another column to-day. The Post is one of the stanneh and reliable papers of the day, and its terms are so low that the weekly edition, at least, is within the reach of everybody. The scale of prices, as stated in the advertisement, shows it to be the cheapest first-class publication in the Union, and as all of our readers are more or less interested in the Metropolis of the West, we commend The Post, either Weekly or Daily, as the best paper, all things or Daily, as the best paper, all things considered, that they can possibly have outside of their own local publication, which, of course, they should take.
